Summary

Senior Computer Science Major at Northern Kentucky University and a proficient Full-stack developer with expertise in React, TypeScript, SQL, and Tailwind CSS. Proven track record of delivering scalable, cloud-based applications with RESTful APIs, microservices architecture, and CI/CD pipelines. Strong background in coding best practices, architectural design, database optimization, and agile development methodologies.

Work Experience

Cha Bar Bistro & Maki Express Ramen House, Freelance Developer (Client Projects, Cincinnati, OH)

June 2025 – July 2025

- Built and deployed a full-scale restaurant management system with web ordering, staff operations, and admin workflows across 2+ Cincinnati restaurants using architectural design principles
- Developed a native Android staff app using Capacitor and Supabase for real-time order notifications
- Implemented secure role-based access (customer, staff, admin) using Supabase Edge Functions
- Reduced transaction fees from 5% to 2.9% by replacing third-party payment processor with Stripe
- Engineered dynamic inventory logic with real-time stock updates and substitution handling
- Built a mobile-first ordering UI with authentication, order history, and account controls

Nittha Siam Kitchen, Freelance Developer (Client Project, Highland Heights, KY)

Feb 2024

- Developed a digital menu interface with accordion UI and item images; reduced phone order time and contributed to ~\$1,000/day increase in pickup value
- Improved accessibility and clarity, leading to 1,000+ monthly users and 21,000+ pageviews
- Restored site functionality in under 1 hour during a domain outage to preserve business operations

Headstarter AI Fellowship Challenge, AI Developer (Team Project)

May 2025

- Built front-end for hospital-focused RAG AI chatbot with OpenAI and vector retrieval
- Collaborated in a team of 4 to deploy and manage infrastructure on AWS EC2

Pintoh Asian Restaurant, Freelance Developer (Client Project, Cincinnati, OH)

Nov 2024

- Developed a customized, SEO-optimized WordPress website with a mobile-first, responsive interface, integrating a plugin stack and CMS backend for streamlined client-managed content and enhanced UX
